

IMPACT REPORT SUDAN

PROJECT IMPACT

It's been more than one year since violence erupted in Sudan as rival factions fought for control of the country's capital. Civilians are still bearing the brunt of the fighting as it spreads across the country. With more than half of the population – around 25 million people – suffering from hunger, the country faces the worst levels of acute food insecurity in its history. To add, over 10 million people, or every fifth person, has been forcibly displaced both internally and into neighboring countries. With your investment in our efforts, IRUSA is able to help vulnerable communities across Sudan build better futures for themselves.

BUILDING RESILIENCE AND ADAPTATION TO CLIMATE CHANGE (BREAC)

IRUSA is working to reduce climate vulnerability among farmers, unemployed youth, and internally displaced people (IDPs).

Start date: December 2023
Proposed close date: July 2027

39,641

PROPOSED NUMBER OF PEOPLE SUPPORTED

PLANNED ACTIVITIES

- Outcome #1:** Increased access to clean water
- Outcome #2:** Improved agricultural and livestock productivity
- Outcome #3:** Increased income for unemployed
- Outcome #4:** Strengthened community disaster-risk reduction capacity
- Outcome #5:** Improved climate resilience through community-based adaptation training

PLANNED ACTIVITIES

Outcome #1: Increased access to clean water for drinking, livestock, and small-scale irrigation

- Construction of climate-friendly, community-operated water facilities, benefitting 193,608 people
- Improved access to gender-sensitive hygiene and sanitation services for 147,200 people
- Improved access to small-scale irrigation infrastructure for 585 farmers

Outcome #2: Improved agricultural and livestock productivity through climate-smart agricultural practices for optimal food production

- Improved livestock health services for over 749,000 livestock, benefitting 1,485 farmers and their families

Outcome #3: Increased income for unemployed, IDP youth

- Skill-based training for 1,162 young women and men entrepreneurs
- Enhanced capacity of seven Technical, Vocational, Education and Training (TVETs) to provide quality market-relevant skills to the youth
- Improved access to microfinancing for 505 graduates

Outcome #4: Strengthened community disaster-risk reduction capacity

- Skill-based training for 1,162 young women and men entrepreneurs
- Enhanced capacity of seven Technical, Vocational, Education and Training (TVETs) to provide quality market-relevant skills to the youth
- Improved access to microfinancing for 505 graduates

Outcome #5: Improved climate resilience through community-based adaptation training

Next estimated report timeline: *First quarter of 2025*

STRENGTHENING COMMUNITY RESILIENCE AND ECONOMIC EMPOWERMENT (SHEEP)

IRUSA is working to help vulnerable communities across the country build sustainable livelihoods for themselves and for generations to come.

Start date: January 2023

Proposed close date: April 2026

45,000

PROPOSED NUMBER OF PEOPLE SUPPORTED

PLANNED ACTIVITIES

Building sustainable livelihoods through agriculture and livestock cultivation

Access to water, sanitation, and hygiene services

PROGRESS

- Provided 1,000 farmers with vegetable seed
- Provided 2,350 farmers with farming tools
- Established two grain stores
- Introduced one farmer's field school
- Trained 25 farmers on soil and water management
- Trained 1,316 farmers on crop production
- Provided 6,810 people with farming resources
- Provided 18,816 households with vaccinations for their livestock
- Provided 50 women farmers with tailoring machines
- Trained 200 women farmers on household income management
- Trained 39 women farmers on safeguarding
- Trained 200 women farmers on savings
- Formed three women farmer's groups
- Supported 1,658 households in promoting afforestation
- Trained 425 community members on climate adaptation
- Trained 154 water management committees
- Trained 20 water hand pump mechanics
- Rehabilitated 53 boreholes
- Trained 1,281 people on best practices regarding hygiene
- Trained 79 committees on water, sanitation, & hygiene (WASH) management

Next estimated report timeline: *First quarter of 2025*

EMERGENCY RESPONSE FOR SUDAN CRISIS (EMRES)

IRUSA is working to provide immediate emergency aid to vulnerable communities across the Gedaref, North Kordofan, and Red Sea states in Sudan.

Start date: September 2023
Proposed close date: May 2025
